William Buhlman

William Buhlman is considered America's leading expert on the subject of self-initiated out-of-body experiences. He is an author, clinical

hypnotherapist, spiritual counselor, and ordained minister whose 30 years of extensive personal out-of-body explorations give him a unique and thought-provoking insight into this subject. His best-selling book, **Adventures Beyond the Body** chronicles his personal journey of self-discovery through out-of-body travel and provides the reader with the preparation and techniques that can be used for their own adventure. Mr. Buhlman's second book, **The Secret of the Soul**, explores unique opportunities for personal growth and profound spiritual awakenings that are experienced during out-of-body travel. During the last six years Mr. Buhlman has conducted an international OBE survey that includes over 16,000 participants from 32 countries. **The Secret of the Soul** reports the provocative results of this survey.

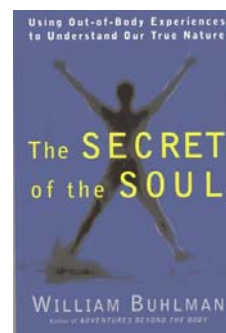

Out-of-Body Exploration *October 14-16, 2005*

This workshop is actually two experiential adventures in one. Friday evening will consist of a brief, fascinating presentation with time allotted for questions and answers and an experiential introduction to methods by which to perceive trance states. The next morning will begin with our exploration of past lives through the technique of past life regression.

Hypnotic regression to previous physical lives can help you uncover, experience, and resolve present problems and fears by going to the source of the issue.

This procedure is not only extremely effective for connecting participants to their own inner light and healing but, for some, regression will offer an opportunity to experience a brief out-of-body awareness (which generally occurs during the transition experienced between physical lives). This provides the perfect segue into the direct experience of the preparatory steps and techniques needed for controlled out-of-body exploration and other spiritual journeys. William brings a refreshing look at how we can use self-initiated out-of-body experiences to explore our spiritual identity and enhance our intellectual and physical lives.

The author has trained out-of-body travelers in his workshops for more than a decade, teaching people how to project their consciousness outside the limits of their physical bodies and to explore dimensions and worlds beyond everyday life. Over the course of this weekend you will experience step-by-step exercises, tips, techniques, and answers to your every question about Out-of-Body Explorations.

William has designed an extensive array of experiential methods that assist in the development of expanded awareness, the exploration of consciousness, and out-of-body exploration. He is a skilled teacher and communicator who shares his work through lectures and workshops conducted nationwide, numerous television and radio appearances, his books, and an extensive series of audio programs which can be purchased through www.astralinfo.org or www.out-of-body.com.

Workshop Sponsor Helpful Suggestions

We can assist you to make this a fun and successful event.

- **Start the planning at least four to five months in advance. You will be looking for a space that will hold about 40 people lying on the floor. This usually requires about 2,000 square feet. The facility must be quiet and comfortable. It should be located near eating facilities, hotels, and have adequate parking. Expect to pay about \$300 to \$500 for a two-day facility rental, more if there are seasonal considerations. Often selecting a camp style or B&B location with catering and/or housing facilities can be an ideal arrangement.**
